It is an honor and a privilege to be Montana’s Superintendent of Public Instruction and to serve as an advocate for our state’s education system. The Office of Public Instruction is here to assist Montana’s schools and the education community to guarantee that all Montana’s students receive a quality education. I know there is no more important aspect of a quality education than a good teacher in the classroom. A good education brings better jobs, more opportunities, and builds stronger communities. An informed public makes informed decisions and good data supports good decisions. That is why I am pleased to share with you facts about Montana education. Learn more about K-12 education in Montana at our Web site – www.opi.mt.gov.

Denise Juneau

Denise Juneau,
State Superintendent

The Office of Public Instruction is committed to equal employment opportunity and nondiscrimi-
natory access to all our programs and services, and will take necessary and appropriate steps to
insure that the workplace and OPI programs and services are free of discrimination and sexual
harassment. For information or to file a complaint, contact OPI Title IX/EEO Coordinator at
(406) 444-3161 or opipersonnel@mt.gov. copies of this public document were published at
an estimated cost of \$. per copy, for a total cost of \$.00, which includes \$.00 for
printing and \$0.00 for distribution.

*The state-funded schools are Pine Hills School, Riverside School, and the Montana School for the Deaf and Blind.

Montana Public School Enrollment
Montana enrollment peaked in the 1995-1996 school year. Since then, enrollment has decreased by over 20,000 students. The enrollment decrease is due to the decrease in Montana live births. In 2002, Montana had one of the lowest birth rates in the country. Montana’s live birth rate is projected to rise in the next 10 years. After declining for seven years, kindergarten enrollment began increasing again in 2003-2004 and has increased by 702 students from 2002-2003 to 2007-2008.

For the first time, since enrollments began to decrease, the declines are smaller for the elementary grades (-0.1%) than they are for the high school grades (-1.9%).

High School Graduates

High School Graduates 2007 10,122
GED* recipients (ages 16 to 19) 1,201
* General Educational Development

Overall high school completion rates have been relatively stable over the past five years. The gap between American Indian students and all students combined is 20 percentage points. The gap between white students and American Indian students is approximately 22 percentage points.

Dropout Rates

The 2001-2002 school year dropout rates have decreased 2.7 percentage points for American Indian Students. The gap between American Indian students and white students continues to be significant, but over the past six school years it has narrowed from 6.9 percentage points to 3.9 percentage points.

Montana Public School Districts
Statewide Expenditures 2006 - 2007

Based on the Standard and Poor's definition

2007 Criterion-Referenced (CRT) Results

In Spring 2007, Montana students took the CRT test in the 3rd through 8th and 10th grade, measuring progress towards state standards in reading and math. This was the second year for the 3rd, 5th, 6th and 7th grades.

2007 Norm-Referenced Test (NRT) Results

The NRT (Iowa tests) measures the National Percentile Rank (NPR). The NPR refers to the percent of students in the national norm group that earned the same score or lower than Montana students. The 2007 test was the last year that the NRT test was mandatory for all students.

2007 National Assessment of Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP), referred to as the Nation's Report Card, is a measure of student achievement in the United States.
